

THE ENTERPRISE.

Volume 12.

SOUTH SAN FRANCISCO, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, OCTOBER 27, 1906.

Number

Only a Few Days More Before Election.

A few days only intervene between this issue of the ENTERPRISE and the election. Ten days from today the electors of California will cast their ballots, which will settle for the time all pending political issues in this State and decide for four years as to who will fill the offices in this commonwealth. For the office of Governor there are three candidates—Gillett, Bell and Langdon. So far as the question of ability, experience and capability is concerned, there is no question whatever that Mr. Gillett is more than head and shoulders above Bell, and so far above Langdon that any comparison is ridiculous. There is no question as to Republican national policies being for the best interests of California, in fact, essential and necessary at this critical stage of her progress and development. There is the certainty that at any time the Governor of this State, as in every other State, may be called upon to fill by appointment a vacancy in the United States Senate, and by virtue of this prerogative is an important factor in national policies and politics.

These are the grounds and reasons why those who have votes to cast should vote for Gillett for Governor. Against this array of facts and reason is the allegation that Gillett was nominated at Santa Cruz by Herrin, the representative and political manager of the Southern Pacific Company in California.

Granting all that is charged against Gillett can the elector who desires to vote to advance and promote the best and highest interests of this State afford to vote against Gillett? We think not. And the broad allegation made that Herrin nominated Gillett should not be taken as granted. Gillett had a large personal following in California and it may be the S. P. Company came to Gillett instead of the reverse. Another and a very important part of this entire proposition is the fact that the Santa Cruz convention, which declared in favor of Gillett, also declared for all nominations in the future by the direct primary method. This means the elimination of all bosses in all nominations. There is still a couple of other items in this present contest. One is that the Langdon men allege that Bell is as much the candidate of Herrin as is Gillett. Again the Bell men declare Langdon is being run to elect Gillett, which means, if it means anything, and the main allegation against Gillett has any force, that Langdon also is the puppet of Herrin, or in other words that Herrin owns and controls not one alone but three candidates.

In such a mix-up let every voter keep cool, use his own head piece and vote as common sense dictates.

The County Coroner Should Be a Physician.

In all large cities the office of coroner is filled by a capable physician and surgeon. There is no reason why the office should not be filled and occupied in the same way in the country.

The object and purpose of all inquests held upon the bodies of deceased persons is to determine two things, and nothing else and nothing more. The first is to ascertain the identity of the deceased when it is not known. Of course a layman may do this as well as a physician. The other, and usually the principal object is to determine the cause of death. Any one who stops to think will see at once that the coroner who is possessed of the professional and scientific skill and knowledge will be much better fitted and qualified for the office of coroner than one who is without such skill and knowledge. The Republican party has nominated Dr. H. G. Plymire for coroner. He has the ability, the technical and the scientific knowledge which fits him for the office and will be most efficient coroner. Furthermore Dr. Plymire has the native ability and energy, and will be elected, and will make one of the best coroners this county has ever had.

A vote for Hayes for Congress is a vote to continue present conditions, which means plenty to do and good prices and good wages.

The Labor Unions of this district have endorsed E. A. Hayes for Congress. Davis says he has the endorsement of Samuel Gompers. Hayes has the support of those who have the votes and Davis of the man who holds a big office. Odds on Hayes.

The five Chinese charged with grand larceny were discharged Wednesday, the action against them having been dismissed on motion of District Attorney Bullock.

Direct Primary Law.

Get Out the Vote.

Ordination Services.

TOWN NEWS.

Menlo Park Notes.

In the direct primary law the people will get their relief from the corrupt methods of bossism now in vogue and do away with the manipulation of party machinery by those who have great sordid and selfish interests at stake. Disgusted by the present system the people are awakening to the necessity of such a law. Both great parties have inserted such a plank in their respective platforms, which will sound the death knell of bossism and corrupt politics in California.

The people of this State are sick, sore and tired of "boss rule" and the "trading of delegations." These features have become a recognized part and portion of machine politics. The interests of the political boss must come before those of the people. In many instances the delegates elected to represent their counties at a convention are "traded" and "bartered" by the "boss," who seeks to control the destinies of the State to suit himself and the corporations who pay him well. So far as the delegates are concerned they are nonentities in the hands of a shrewd politician who uses them for his own purposes. He becomes their master and his will is law. By shrewd and questionable methods in the way of "sops" thrown to them, he accomplishes what he aims to do, viz: to place in office men who are acceptable to the corporations that pay him the most. In a word he "delivers the goods" through the medium of the delegates who are supposed to represent the people of their respective districts. The "boss" robs them of their power and defects the purpose for which they were chosen, namely, to select the best men for the positions to be filled.

Oregon and many other states have adopted the primary election law which gives the people the direct power to nominate their own candidates, and since the law has been in operation these states have been the gainers. "Bossism" exists no longer and the people enjoy the great boon granted to the American people—Freedom.

This agitation is going on all over the United States and California should not be the last to fall in line. "Boss rule" has been the curse of this state, and has had much to do with impeding its growth and prosperity. The measure will be bitterly fought by the politicians and bosses because it will shear them of their power, and place it in the hands of the people when it rightfully belongs. Many candidates for office are now before the people who are in favor of the direct primary law. These are the men who should have the support of the people—Menlo Park Progress.

Winning Confidence.

At the last Congressional election it was shown that there was an overwhelming majority of voters in this country favorable to Republican policies of legislation and Administration. The fact was demonstrated by the election of a House of Representatives, with a Republican majority of 112. Nothing has occurred since that election which should be construed as furnishing a basis for a change of opinion on the part of the voters. On the contrary, the House which they elected two years ago made a record of efficiency, honesty and capacity never before surpassed by any other Congress. So it may be assumed that the normal sentiment of the electorate is favorable to Republican supremacy. But something more is required than to have that sentiment exist. It must be evidenced by casting a vote in the election. It will be of no avail to the country's prosperity and welfare, merely for the sentiment to remain favorable—the opposition sentiment will be shown by votes in the ballot box.

There is always ground for apprehension of apathy in an "off year." Two years ago the Presidential campaign stirred up even the most indifferent and got them to the polls. Once there, they voted the whole ticket. This year it must be seen to that the vote is turned out. In such a time as this, with prosperity rampant, everybody at work, everybody contented, the Republican party well entrenched in power and in the hearts of the people, and there is all the more danger from apathy. Every man is busy with his own affairs, and men are too prone, when there does not seem to be any great public danger threatening, to shirk their duty at the polls.

It is true that no public danger is imminent, but it is also very important to the country to have no change in political control of Congress just at this juncture. The good work commenced in Congress by the party in power must be carried on, and it cannot be completed if the Democrats are allowed to control the House. Republicans should see to it that the vote gets out on election day. That will be all that is necessary—get out the Vote, and it will be Republican, all right.

Last year at this time there was a Treasury deficit of nearly \$20,000,000, though the surplus at the end of the year was \$25,000,000. At present there is a surplus of over \$6,000,000, which indicates a surplus at the end of the year of over \$50,000,000. If you want such good Government-house-keeping to continue—VOTE FOR E. A. HAYES, THE REPUBLICAN CANDIDATE FOR CONGRESS.

California Polytechnic School.

The State "Polytechnic" at San Luis Obispo has opened for its fourth year with greater promise than ever. One hundred and sixteen students have now registered, which is an increase of 30 per cent over last year at this time. The students come from more widely distributed sections of the State than in former years, showing that the Polytechnic School is more generally known and its advantages in the way of a practical education better appreciated.

The Loop at the Ferry.

The United Railroads has begun tearing up Market Street in front of the Ferry for the installation of the new loop. The special work has all been finished in the shops of the company and the engineers have reported that they are ready to go ahead with the work. The loop has been carefully planned, and Chief Engineer Hartwell has been giving his time for the last few months superintending the details.

A gang of men has been employed for several nights in tearing up the rails of the old horse-car track at the foot of Market street to make room for the new tracks.

The installation of the loop is regarded by the officials of the United Railroads as one of the most important pieces of work undertaken for some time. The congestion on Market Street has been a source of constant annoyance to the officials, and they have been trying to rush the special work for the loop and get it installed as soon as possible.

A new volume begins with this issue.

We regret very much omitting to mention in our last week's issue the Ordination service at Grace Episcopal Church when the Rev. Arthur Dodd was ordained as a Deacon of the Episcopal Church. The vestal choir of the San Mateo Divinity School were present and furnished the music. Holy communion services were held.

Mr. Dodd is a young man of sterling worth and will be a great acquisition to the church in whatever field his lot may be cast.

Installation of Masonic Order.

Friday night, October 26th, at Masonic Hall, in the presence of friends and members, the officers of Francis Drake Lodge were duly installed. The ceremonies were in charge of Grand Master Hart, assisted by Inspector Rod Gingot. Geo. T. McDonald was installed as Worshipful Master, J. O. Snyder as Senior Warden and J. J. McDonald as Junior Warden. After the ceremony a banquet was given, as only the Masons of South City know how to give. After a pleasant evening of banqueting and toasts the guests departed with best wishes for Francis Drake Lodge.

Metropolitan Hall Engagements.

The following is a list of Metropolitan Hall engagements for this evening and the ensuing week:

Saturday evening, Oct. 27, Wahnta Council No. 35, Degree of Pocahontas, will give a dance and entertainment for the benefit of Mrs. G. Felten whose home was destroyed in the recent Aragon hotel fire.

Tuesday evening, Oct. 30, dancing class.

Wednesday evening, Oct. 31, meeting of the Eagles.

Thursday evening, Nov. 1, Democratic rally.

Saturday evening, Nov. 3, Druids.

Meetings Still in Progress.

The special meetings at the Methodist Church will continue through another week. The interest in the meetings continues unabated. A party of young people from Wesley Church, San Francisco, came out on Thursday evening to help on the good work.

Already there have been quite a number of adult conversions, several men being among the number who have entered into the joys of the new life.

Mr. H. D. Kennedy will speak this week as follows:

Sunday, 11 a. m., "Three Circles."

Sunday, 3 p. m., Prayer rally for our town.

Sunday, 7:30 p. m., "A Bad Man Caught."

Monday, 8 p. m., "The Eleventh Hour."

Tuesday, 8 p. m., "Two Choices."

Wednesday, 8 p. m., "Too Late for a Seat."

Thursday, 8 p. m., "Not the Better, But the Best."

Friday, 8 p. m., "Show Your Colors."

The townpeople will be made cordially welcome. Special music by soloist Mr. A. Burnham, with an occasional duet or quartet. Certainly one of the attractive features of these meetings is the fine solo work of Mr. Burnham.

Fraternal Orders.

Arrangements are being made to hold a Sunday afternoon service at Metropolitan Hall on November 4th, subject to be "Fraternaism." It is hoped that all members of the various orders will be present with their friends. There will be good speaking and singing, and a pleasant time is assured. Admission will be free by ticket, and the same may be obtained from any active member of the various orders.

I. O. R. M.

Arrangements are complete for the benefit dance to be given in Metropolitan Hall Saturday night. This will appeal to fraternalists, inasmuch that it is for the purpose of benefitting those who lost all their worldly possessions in the Armour Hotel fire, and are in need of assistance. General admission, 25 cents.

F. O. E.

The Fraternal Order of Eagles in South City are advancing in numbers and influence. On Wednesday last the home team for the first time put on the degree work, and right well was the work done. Bro. Bazley, you are O. K.

It is the intention of the drill team to compete, at no distant date, for the trophy, which is their intention to bring to South City. It may be well to state that South City Aerie is now the banner fraternal order in San Mateo county.

TOWN NEWS.

The frame of the new school building is up.

Dr. W. M. Barrett paid our town a visit Monday.

Ricardo Molinari has his new cottage in block 97 enclosed.

The Swift planing mill is completed and in full operation.

The I. Lombardi residence in block 97 is about completed.

Will Hickey has his cottage on Baden avenue nearly completed.

The big water mains will soon be completed at the smelter site.

A number of our sports attended the fight Monday night at Colma.

John Pozzi has his new dwelling house on Commercial avenue enclosed.

Contractor Bratcher has begun work on twenty new company cottages.

The Kauffman Bros. have the frame of one of their new store buildings up.

The Stefani Relic cottage on Baden avenue is approaching completion.

The Lumber Co. is busy hauling lumber to its yard from the wharves of the Western Meat Co.

The Mill & Lumber company has its fine, commodious new office and storage building about finished.

Building continues active. The extent of building is limited only by supply of material and mechanics.

All the factories are busy. All of the industries are running full time with a full force, and some overtime.

P. Arrien, proprietor of the French Laundry, will begin the erection of a new plant soon on his lot on Grand Avenue.

Mr. Al Eschelbach has resigned his position with the S. P. Co. and will accept a position in the Post Office the first of the month.

Dr. Harry G. Plymire, our Republican nominee for County Coroner, has been out this week rounding up the boys. A vote for the Doctor is a vote for integrity, competency and a clean, honest administration. Don't forget the Doctor, November 6th.

Our strenuous young attorney, Harry E. Styles, is walking on air, all on account of a new boy at his house last Monday night. Harry is a great believer in Rooseveltism and says he and Teddy are seriously thinking of taking the eagle off one dollar and putting a star in its place. Another Republican voter for South San Francisco.

Sixty carloads of scrap iron have been received and dumped upon the land east of the Grand hotel, where it is rumored a new and large manufacturing industry has recently been located. Another lot has been dumped south of town on another prospective factory site. All the indications point to the early advent of new and large industries, the location of which has not been made public or officially announced. Inquiry at official headquarters fails to obtain more than a smile or nod of the head, and the assurance that everything is all right, and the encouraging information that the town has only begun its development.

Grand Jurors Drawn.

The following names were drawn from the Grand Jury box to serve as grand jurymen. They will appear in the Superior court, Tuesday, November 13th, at 10 o'clock to organize:

C. J. Hatch, W. A. Moore, T. F. Casey, Tom Mason, J. T. Jennings, John Mangini, H. G. Schultz, Asa E. Hull, J. B. Kelly, J. J. Hintz, M. J. Hawes, C. C. Cullen, B. D. Weeks, W. J. Plump, Geo. D. Greeley, A. J. Carleton, John Poole, M. F. Brown, T. L. Hickey, J. M. Frances, C. H. Knapp, A. Sturla, E. Biggio, Geo. E. Stafford, M. J. Conway, J. T. Ralston, R. Martini, J. N. Winter, Peter Thorsen, E. E. Dulac.

Fire at Mountain View.

Fire, which broke out last Monday evening, partially destroyed the Weihheimer building, occupied by D. M. Farr, and a house occupied by David Foster.

Arthur M. Free gave the alarm and assisted by the fire department prevented the blaze from spreading and doing further damage. The loss will amount to \$3000.

Cars are expected to be running in Palo Alto by November 7th. The cars ordered in Sacramento will arrive at Palo Alto to-day.

The tract adjoining the 1 Park nurseries will be divided residence lots.

Patrick Foley, who has seriously ill, has been removed to the county hospital for treat

The Cemetery Association meet next Sunday and step be taken to collect the fund for 1906.

Thomas Tuite has moved Menlo Park to Redwood He has rented the Arguello place at that place.

James Fitzgerald is leading young stalwart Republicans active campaign for the success of the Republican Party.

The garden fete at the Hopkins home for the benefit of the Trinity Episcopal Church last Saturday was a success well patronized.

An inventory of the estate of the late Prentiss Selby of Oaks shows its value to be \$873.29. A brother and three sisters of the deceased inherit the estate.

The League of the Cross C will give a grand entertain

Grand and Linden Avenues, South San
Francisco, Cal.

SATURDAY, OCT. 27, 1906.

Popular Young Couple Wed.

Wednesday evening, October 24, at
8:30 in Grace Episcopal Church, a happy
courtship was culminated when Miss
Nellie Dann gave her hand in marriage
to Mr. Joseph Ames.

At the appointed hour, to the
strains of Loengren's Wedding March
played by Master Jack Martin, the
bridal party entered, led by little Miss
Irene Cook, cousin of the bride, as ring
bearer, followed by Miss Margaret
Kaufmann as bridesmaid. Then came
the bride on the arm of her uncle, Mr.
Chas. Cook, who gave her away. At
the altar they were met by the groom
and his brother, Frank, who acted as
best man. There, beneath a beautiful
arch of flowers and ferns the vows were
spoken which united Joseph and Nellie
for life, by the beautiful and impressive
ceremony of the Episcopal Church,
the Rev. Arthur Dodd officiating.

The bride was attired in a Princess
gown of cream colored French silk,
with satin finish. The groom was in
the conventional black Prince Albert.
Mrs. Ames is the only daughter of
Mrs. J. Dann and has grown to woman-
hood in our midst. By her pleasant
ways and jolly disposition she numbers
her friends by her acquaintances.

Mr. Ames is a young business man of
San Francisco, where he conducts a
jewelry business, being a diamond cut-
ter by profession.

After the ceremony the bridal party
enjoyed a nice supper at the home of
the bride, after which they went to San
Francisco. The honeymoon will be
at "Del Monte by the Sea," after which
they will be at home in San Francisco.

The ENTERPRISE, with their host of
friends, wish them a happy voyage over
life's ocean.

The Democratic Meeting.

The meeting held under the auspices of
the Democratic county central com-
mittee at Metropolitan hall Tuesday
evening was a success as political meet-
ings go. The hall was fairly well filled
although not packed, as in the case of
the Republican meeting of last week.
The audience was responsive and man-
ifested a continued interest from the
beginning to the end of the meeting.

Our own Jorgen Jorgenson opened
the meeting as Democratic county com-
mittee man and introduced W. J. Savage
as chairman for the evening. Mr.
Savage presided with dignity and in-
troduced the several speakers with ease
and grace.

The county candidates for the most
part made their bows and retired. Miss
Nellie Casey proved an exception and
made a brief but very sensible and fitting
speech. Our neighbor, Mr. Wm. Hyland,
also acquitted himself happily in
a few well chosen words. Mr. Jas.
F. Swift, Democratic candidate for auditor,
also spoke well, although briefly.

The principal address was delivered by H. G. Davis, Democratic nominee
for congress for this district. Mr. Davis
is not a brilliant speaker nor is he an
orator. He is, however, a fairly good
talker. His 30 minutes' talk was de-
voted almost exclusively to an attack
upon his opponent, Hon. E. A. Hayes.
The failure of congress to put all building
material intended for the rebuilding of San
Francisco upon the free list he
dwelt upon at length—but Mr. Davis
did not attempt to dispute or contradict
the statement made publicly by Mr.
Haves in Metropolitan hall in this town
to the effect that Speaker Cannon con-
sented to have the bill for San
Francisco a pretext for a general
onslaught upon the entire protection
system, and that Mr. Williams refused
to consider any such terms. Mr. Davis
accused Hayes of the heinous offense of
refusing to extend the provisions of the
8 hour law to the Isthmus of Panama
and the work on the Panama canal.
Mr. Davis also boasted that Samuel
Gompers was favorable to Mr. Davis'
candidacy, but as Gompers is not a resi-
dent of California, and as Hayes has
the endorsement of the Labor Union
organization in his congressional dis-
trict, it is altogether probable that Mr.
Hayes is not losing any sleep over the
alleged attitude of Mr. Samuel Gom-
pers.

Mr. MacFayden appears to have
gone direct from his bank to a station
on the City and South London
Railway, to have entered the tunnel
unobserved and deliberately laid
down in front of an approaching
train. The engineer reported having
run over an obstruction in the tunnel
and a search revealed a shockingly
mutilated body, which was identified
as that of Mr. MacFayden.

Mr. Haydon made a short but well
expressed address for Theo. Bell and
the State ticket.

The music rendered by the Colma
band was good.

THE BANKERS
ARE HOPEFUL

LEADING FINANCIERS OF THE
COUNTRY ARE SANGUINE OF
AMERICA'S FUTURE.

No Legitimate Business Need Fear
Depression—Lowering of Credit
Appears Impossible.

New York, Oct. 23.—Wherever
bankers and financiers met yesterday
chiefly in clubs like the Union, Metro-
politan and Union League, what
amounted practically to informal
conferences on the monetary situation
took place. Bankers generally
expressed hopeful views as to the
outcome of the present money situa-
tion.

The cabled reports that the Bank
of England contemplated a further
increase of the discount rate from 6
to 7 per cent if we continue to drain
the bank's gold resources, were not
regarded with concern, judging from
interviews on the subject.

President Warner Van Norden of
the Van Norden Trust Company said:
"Of course the conditions that now
face gold borrowers in London will
affect us considerably, but I do not
see any reason for fearing trouble.
The finances for our crop moving
have been pretty well supplied al-
ready, and the American markets will
soon adjust themselves to the new
conditions."

A. Barton Hepburn, president of
the Chase National Bank, took an
optimistic view. He was unable, he
said, to recall a time when there
were "fewer clouds upon the horizon.
From a banking point of view the
situation is excellent," said Mr. Hep-
burn. "No legitimate business need
fear depression. A few operators
may have trouble in renewing their
loans they would like to, but as for
any general lowering of credit or
financial storm I think it impossible."

President William Nash of the
Corn Exchange Bank said:
"The raising of interest rates by
the Bank of England will not affect
this country to any extent. We have
plenty of money."

TIN TRUST RAISES PRICES.

Goods Made From Tin Plate Will
Sell Somewhat Higher.

New York, Oct. 23.—The American
Can Company has made a sub-
stantial advance in the price of most
of its products because of the advance
in raw materials. This announce-
ment is made on the authority of a
representative of the corporation.

The statement follows:

Goods made from tin plate, which
include products of the American Can
Company, and other companies in the
same line of trade, have been materi-
ally advanced because of the in-
creased cost of tin plate, and also pig
tin and pig lead. It is from the last
two products that solder is made for
the manufacture of cans. This applies
to everything except packers' cans,
prices on which have not as yet been
officially announced as the season
does not begin until January 1. In
some cases the advance is equal to
25 per cent.

GETS IRON FOR GOLD.

Man of Wealth Is Made Victim of Old
Confidence Game.

Hanford, Cal., Oct. 18.—Mike Deutra,
a wealthy farmer of this county,
was the victim, yesterday, of an old
confidence trick. Two strangers visited
him at his ranch near Granger-
ville, pretending to buy the place.
They induced Deutra to draw from
the bank \$5,000 in gold and place it
in a barley sack before the deal
would be closed. Deutra came to
Hanford and the Farmers and Mer-
chants' National Bank handed him
the coin in a sack.

During further discussion of the
deal the strangers took Deutra's sack
of gold, leaving a sack of iron wash-
ers, and drove away. Officers are in
pursuit in automobiles.

Throws Himself Before Moving Train
London, Oct. 23.—P. MacFayden,
head of MacFayden bankers, whose
suspension was announced Saturday,
committed suicide within an hour
after posting the notice of the failure
on the door of the bank by throwing
himself before a train in a tunnel
half a mile away from his place of
business.

Mr. MacFayden appears to have
gone direct from his bank to a station
on the City and South London
Railway, to have entered the tunnel
unobserved and deliberately laid
down in front of an approaching
train. The engineer reported having
run over an obstruction in the tunnel
and a search revealed a shockingly
mutilated body, which was identified
as that of Mr. MacFayden.

A Mr. Haydon made a short but well
expressed address for Theo. Bell and
the State ticket.

The music rendered by the Colma
band was good.

Like an Egg

Full of meat, useful and far reaching,
the Peninsular number of the San Francisco
News Letter. From cover to cover
the interest never flags, the illustrations
are splendid, the information is authentic
and the articles are well written. It
will take four days to complete deliv-
eries in all the towns on the Peninsula
and in San Francisco. The edition of
fifty thousand is sure to be exhausted.

To the Many Customers of the People's
Store.

Having purchased the large stock of
merchandise formerly owned by M.
Cohen and known as the People's Store,
it gives me great pleasure to announce
that within a few days I will receive a
large and complete stock of goods,
consisting of men's and boys' clothing,
hats, caps, boots and shoes, notions,
dry and fancy goods and everything in
general in the line of wearing apparel
for men, women and children. You
are all cordially invited to call and in-
spect our goods.

W. M. C. SCHNEIDER, Prop.

To the Public of South San Francisco

A. E. Graham, optician, wishes to an-
nounce that he will be located at the
South San Francisco Pharmacy, for the
purpose of testing eyes and fitting and
repairing of glasses.

A full stock of optical goods, including
lenses, mountings, goggles, dust
protectors, dark glasses, chains, etc.,
will be carried. Repair work will re-
ceive prompt attention.

Hours—Saturday afternoons and
evenings and Sunday mornings.
The testing of eyes will be free.

NOTICE

Come One, Come All. Give Us a Trial

The German Bakery has opened with
a full line of bread, cakes, pies and
mixed buns. We especially mention our
celebrated mince pies. Saturdays always
something extra. Open from 5
A. M. till 8 P. M. Except Sunday close
at 12 P. M.

Cleanliness and purity is our motto.

THOUSANDS DIE REUNITED WHILE IN GREAT STORM

LATER REPORTS ONLY INCREASE THE EXTENT OF THE DISASTER.

Barges Loaded With Workmen Missing—Coast and Islands Suffer the Most.

Miami, Fla., Oct. 22.—The death list as the result of Thursday's hurricane will exceed 1,000. Some estimates go beyond 1,500.

Millions of dollars worth of property was destroyed. Every hamlet along the coast and on the higher keys that escaped some of the fury of the storm have been turned into places of refuge. At each of these places are dozens of injured while each incoming steamer brings bodies of dead. Searching parties have started out along the coast to look for the dead and injured.

Workmen on the extension of the Florida East Coast Railway from Miami to Key West suffered most. Ten barges, each bearing 150 men, were torn from their moorings and carried out to sea. Of these barges two were blown across Biscayne bay and went aground with the loss of only a few lives. Another barge was broken up by the heavy sea. Forty-nine men were picked up by the Austrian steamer *Jennie*. The other barges with their 1,050 workmen have not been heard from and it is feared they have been destroyed.

Fears are entertained for the entire fishing and fruit fleet and no word has been received from any of the vessels. Manager Adams of the Florida Fish and Produce Company, sent out boats yesterday to look for the missing vessels of that fleet.

Great damage has been done to Government lighthouses along the coast. So far as known, however, none of the lighthouses were put out of commission and each one is doing its best in aiding the work of the rescuing of unfortunate.

The Florida East Coast Railroad will suffer heavily from the storm and much work on the extension out over the sea from Key to Key between the mainland and Key West, will have to be done over again. There is also a possibility that the plans of the builders may be changed on account of the danger of recurrence.

The Miami steamer *St. Lucie* which was crushed against Elliott's Key by high waves lost twenty-five out of 100 persons on board. Seventy-five survivors of the *St. Lucie* were brought here. Everyone of the seventy-five was hurt in the wreck. The *St. Lucie* was one of the Flagler line and Captain Bravo is one of the most trusted and competent commanders of the East Coast system.

Another of Flagler's boats, stationed at Long Key, between here and Key West, was torn from her moorings and went adrift with 110 men on board. She was blown into the Gulf of Mexico and literally torn to pieces. Many were drowned. The steamer *Peerless* lost about thirty men, who were blown off the vessel.

About fifty men just arrived at Miami from Long Key. They report twenty-five men at Long Key safe, also two barges remain at Long Key, but the remainder of the men and the plant located there are gone. It is estimated that fifty lives were lost on the dredges at Lower Nettumbo.

At Long Key about forty men were picked up safe. There was heavy loss of life on the dredges at Long Key. The steamer *Vigilancia* is expected soon with bodies. The steamer *Biscayne* arrived yesterday in good condition.

Wilmington, N. C., Oct. 22.—A storm of considerable severity prevailed off this coast yesterday with unprecedented high tides. Thus far there has been no damage of any great extent and no disasters to shipping have been reported.

Storks Sent to the President.

New York, Oct. 22.—Two big storks in a handsome cage arrived here yesterday on the steamship from Hamburg. The tag on the cage bore this inscription: "Theodore Roosevelt, Washington, U. S. A."

Just who sent the storks no one knows, though it was said they came from a Berlin firm, and it was barely possible they were intended for a relative of the President. On a pleasant day the cage was placed on the boat deck, and while there one day some one pinned it on a card which was written: "Ladies, beware—the birds are dangerous."

Another humorist added: "All applications for the services of the storks should be addressed to William Loeb at the White House."

The birds will be sent to Washington.

A. P. HAWS AND WIFE, FROM WHOM HE WAS DIVORCED ARE MARRIED AGAIN.

Aged Couple Were Divorced Five Years Ago, and Since Then They Have Nothing in Common.

Santa Rosa, Cal., Oct. 23.—A death-bed marriage that brought tears to the eyes of the witnesses took place last night at Dr. Burke's sanitarium, near Santa Rosa. The principals were Alpheus Peter Hawes, 81 years old, a well known mining man of Breckley, and Hannah Elinor Hawes, 65 years old.

The aged couple were divorced five years ago, and since then they have had nothing in common but the memories of the past. A few weeks ago Mr. Hawes came to Santa Rosa for treatment. His age and weakened condition proved strong allies to the disease that was sapping his life and although he received the best medical attention he gradually became worse, until it became evident that he had not long to live.

Then it was that the yearning for the bride of his youth swept away all the bitterness that was in his heart, and he begged that she be sent for. Mrs. Hawes responded at once, and upon her arrival at the sanitarium a reconciliation was quickly effected and another marriage decided upon.

A messenger was hurriedly dispatched for a marriage license. Rev. Leander Turney of the First Baptist Church of this city and Chief Deputy County Clerk Pressley, the latter bearing the necessary license, went to the sanitarium and the ceremony that reunited the aged couple was performed in the presence of the attending physicians and nurses.

FINDS LOST NAME IN DREAM.

Befuddled Young Man Discovers Clew to His Identity While Asleep.

Sacramento, Oct. 23.—Brought back by a dream to a hazy recollection of himself the unidentified young man at the County Hospital, who has been a mystery to himself and to the authorities, now believes he is Frank E. Dixon, son of a banker of Coon Rapids, Iowa.

The young man was found in a boxcar without marks of identification. He could not remember his name and so was turned over to the authorities here so that they could assist him in regaining his memory. Last night he dreamed he had just received a letter on which the words "Dixon, Coon Rapids, Iowa," appeared in gilt letters.

City Attorney Luke Howe referred to Bradstreet's, and there found the name of A. Dixon, president of the Coon Rapids National Bank. Telegrams were exchanged and so it was fairly well established that the young man at the hospital is Frank E. Dixon.

The elder Dixon has wired that the young man be given every attention. It looks as if he were the victim of knockout drops, and had been placed in a boxcar after having been robbed.

The name Dixon seems familiar to him and he thinks it is his, but he cannot be certain until his brain has grown clearer.

Man Shot From Ambush.

Watsonville, Cal., Oct. 23.—The police of this city were notified yesterday of an attempt to murder Pete Soto five miles out of town. When they arrived they found that his alleged assailant, Arnold Cordova, had already been apprehended and bound with ropes. It developed that Soto had been shot from a thicket, had later fallen from his wagon. His condition is critical.

Physicians Say Actress Was Murdered

Chicago, Oct. 23.—When the dead body of Mrs. Margaret Leslie, an actress, was found recently in a room in the Palace Hotel, it was considered to be a case of suicide, but lately the police have been investigating to see if the woman was murdered. To-day the Coroner's physician declared that the woman was probably strangled to death. There is no clew to the murderer.

Promotion in Five Counties.

Napa, Cal., Oct. 22.—The Chambers of Commerce of Napa, Sonoma, Lake, Marin and Mendocino counties have perfected an organization to be known as the North of Bay Counties Association for promotion purposes.

General Miles Returns.

New York, Oct. 23.—General Nelson A. Miles, U. S. A., retired, arrived from Europe today on the steamer *Minnetonka*.

COUNTY SURVEYOR

Election Tuesday, Nov. 6, 1906.

COAST IS ATTRACTIVE

CALIFORNIA PROMOTION COMMITTEE INDUCES MECHANICS TO CHANGE RESIDENCE.

New York, Oct. 22.—It takes a little touch of winter to remind the people of the East that there is a better land, and this applies especially to the laboring man. The weather has appeared, and now the San Francisco labor situation is about to be relieved by the coming of numbers of skilled workmen from all parts of the country. Just what the Eastern workingman thinks of California climate and conditions was shown last Saturday evening in New York, when the Associated Building Trades invited Colvin B. Brown, manager of the Eastern Bureau, to deliver an address on California conditions, as they apply to labor. Mr. Brown was met by a large and appreciative audience, and several times during his address he was interrupted by cheers for California. Brown has been invited to deliver several other lectures along similar lines, and among these is a series to be delivered under the auspices of the New York Board of Education.

The fact that the Associated Press sends these daily bulletins out, has given wide publicity to conditions in California, and the interest that has been aroused among mechanics is not confined to New York.

The best result shown at the Eastern bureau last week was when H. Goerschner of New York called to make arrangements to have a party of 150 skilled mechanics, with their families, go to San Francisco.

General Miles Returns.

New York, Oct. 23.—General Nelson A. Miles, U. S. A., retired, arrived from Europe today on the steamer *Minnetonka*.

Another humorist added: "All applications for the services of the storks should be addressed to William Loeb at the White House."

The birds will be sent to Washington.

TO MANUFACTURERS

The earthquake did but little damage to South San Francisco. The industries located here, the Western Meat Company, the Wool Pullery, the Butler Brick Company, the Pacific Jupiter Steel Company, the Steiger Pottery Works, the W. P. Fuller White Lead Works, and other enterprises, are all in full operation today. Not one of them having suffered any serious impairment by reason of the earthquake.

The South San Francisco Land and Improvement Company planned South San Francisco as a manufacturing suburb to San Francisco. With that object in view they originally purchased 3,500 acres of land in San Mateo County on the bay front five miles south of the City of San Francisco, and have developed their property so that today they possess perfected nearly every feature desired by manufacturers.

SOUTH SAN FRANCISCO

Is a railroad terminal; is on the main line of the Southern Pacific Railroad and accessible to all railroads; has deep water communication; owns and operates for its industries, a railroad connecting with the Southern Pacific and the water front; has electric street car service from factory to town and direct to San Francisco; has an Electric Light and Power Company; owns an independent water works, and has an abundance of fresh water for factory and house; has wharves and docks; a perfect sewerage system; a bank; a town hall; and a population of 3,000 people; an extensive and fine residence district, where workingmen may secure land at reasonable prices, and on favorable terms, as homes for themselves and their families.

→ FACTORY SITES ←

Can be obtained from the South San Francisco Land and Improvement Company on most reasonable terms.

The American Smelting and Refining Company recently purchased from this Company 200 acres of land and are on the ground today arranging for the immediate construction of a plant costing upwards of \$5,000,000. This means a vast increase in population, and a great augmentation for the benefit of all industries of every detail pertaining to rail and water communication.
